PROFESSIONAL SUMMARY

Frontend Engineer with 5 years of experience building scalable, responsive web applications using React, Next.js, Angular, and modern frontend technologies. Experienced in CMS-driven development, API integration, web performance, accessibility, and SEO. Strong in building user-focused interfaces and collaborating with cross-functional teams to deliver high-quality web solutions.

TECHNICAL SUMMARY

- Frontend: React, Next.js, Angular, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap
- CMS & Web: Astro, Strapi, Storyblok, Responsive Design, Accessibility, SEO, Web Performance
- API & Integration: REST APIs, Axios, Fetch
- Testing: Jest, Jasmine, Cypress, BrowserStack, LambdaTest
- Tools & Collaboration: Git, GitHub, Figma, Code Reviews
- Analytics & SEO: Google Analytics 4, Google Search Console, Semrush

EDUCATION

2013 – 2015

Jain University

Master of Science (Physics)

Completed a Master of Science in Physics with a specialization in Electronics, securing a CGPA of 6.9

2011 - 2013

SK UNIVERSITY

Bachelor of Science (Computer Science)

Completed a Bachelor of Science in Computer Science with a CGPA of 7.1.

EXPERIENCE

2025 – Present

Securin Labs

Website Manager

Develop and manage responsive, SEO-focused web experiences using modern frontend technologies and CMS platforms. Work across Astro, Strapi, Storyblok, React, and Next.js while collaborating with design, content, marketing, and engineering teams.

2021 – 2025

SmartX Technologies

Senior Software Engineer

Developed responsive and accessible web applications using React, Angular, and Next.js. Built reusable UI components, integrated REST APIs, translated designs into high-performance interfaces, and collaborated with cross-functional teams.

2015 - 2019

Previous Experience

Lecturer

- Vijetha Inter and Degree College – Senior Lecturer (2018–2019)
- Enlight Degree College – Lecturer (2016–2017)
- Sri Chaithanya Junior College – Lecturer (2015–2016)

SKILLS

- Leadership
- Teamwork
- Communication
- Innovation
- Problem Solving
- Collaboration
- Adaptability
- Mentorship

TOOLS & TECHNOLOGIES

- Frontend: React, Next.js, Angular, JavaScript, TypeScript, HTML5, CSS3, Bootstrap, Tailwind CSS, Angular Material, Material-UI
- CMS & Web: Astro, Strapi, Storyblok, Responsive Design, Accessibility, SEO, Web Performance
- API & Integration: REST APIs, Axios, Fetch, Angular HTTP Client
- Testing & Quality: Jest, Jasmine, Cypress, BrowserStack, LambdaTest, SonarQube
- Version Control: Git, GitHub, GitLab, Bitbucket
- Design & Development: Figma, Adobe XD, Builder.io
- Performance & Analytics: GTmetrix, Google PageSpeed Insights, Google Analytics 4, Google Search Console, Semrush
- Data Visualization & Platforms: D3.js, Chart.js, Odoo

PROFESSIONAL EXPERIENCE

SECURIN LABS (present)

- Develop and maintain Securin's web platform using Astro, React, Next.js, Storyblok, and Strapi, supporting scalable CMS-driven experiences.
- Led the website revamp and CMS migration, migrating articles and technical reports to Astro + Strapi and streamlining content workflows.
- Developed the Vulnerability Intelligence Database, integrating live CVE data with automated updates and dynamic vulnerability listings.
- Developed and maintained product, platform, use-case, and security content experiences, ensuring responsive and accessible UI across devices.
- Improved technical SEO, accessibility, Core Web Vitals, and website performance, using GA4, Search Console, Semrush, and Lighthouse for monitoring and optimization.
- Implemented automated data workflows and integrations to reduce manual content and data management efforts.
- Leveraged AI-assisted development and automation to accelerate frontend implementation, CMS migration, debugging, and website improvements.
- Collaborated with design, content, marketing, and engineering teams to translate requirements and designs into production-ready web experiences.

SMARTX TECHNOLOGIES (2021-2025)

Catrion (Angular 18, CSS)

- Developed responsive enterprise interfaces and integrated APIs for business workflows and reporting.
- Implemented custom features and optimized frontend performance across the application.
- Worked closely with cross-functional teams to deliver UI enhancements and resolve frontend issues.

Tea Withering (React, Tailwind CSS, Axios)

- Migrated legacy HTML pages into modular React components, improving reusability and maintainability.
- Integrated REST APIs and developed responsive interfaces using Tailwind CSS.
- Implemented reusable components and improved the application structure for scalable development.

Wexl (Angular 8, JavaScript, Cypress)

- Developed four role-based application modules with reusable UI components and REST API integration.
- Mentored the QA team in developing Cypress automation scripts and supported frontend testing.
- Implemented responsive layouts and reusable components across multiple application modules.

Marble (Angular 16, CSS)

- Built reusable UI components and implemented dynamic routing, form validation, and client-driven features.
- Improved frontend performance through UI and component-level optimization.
- Developed responsive interfaces and implemented UI enhancements based on client requirements.

Federal Bank (HTML5, CSS3, Bootstrap 4, WCAG 2.2 AA)

- Developed responsive banking pages from Figma designs with WCAG 2.2 AA accessibility standards.
- Ensured cross-browser and cross-device compatibility through responsive testing.
- Implemented accessible UI patterns and optimized layouts for different screen sizes.

ICICI (Angular 14, Chart.js)

- Developed responsive internal dashboards with dynamic data visualization using Chart.js.
- Implemented lazy loading and frontend optimizations to improve application performance.
- Built reusable dashboard components and integrated dynamic data into visual reporting interfaces.

Apt Path (React, Tailwind CSS, MUI, Axios)

- Architected the frontend component structure from scratch for a scalable application.
- Implemented role-based interfaces and integrated multiple backend APIs.
- Developed reusable UI components using Tailwind CSS and MUI to maintain consistency across the application.
